

CANDLE CARE

We hope you enjoy our Sphere candles as much as we do!

All spheres candles are plated to a very high standard in an array of precious metals.

Treat them with a bit of kindness for that continual luxurious look.

How to Look after them

Please don't clean the sphere/candle with soap and water,,or anything abrasive or chemical.

Avoid using perfumes, lotions, oils or chemicals when touching the sphere - this could tarnish the product.

We have enclosed a polishing cloth - please use this to clean the sphere.

The first burn

The first burn is the most important to maximise the candle scent and to prevent "tunnelling"
When you first light your candle always allow the whole surface of the candle to burn - this may take up to 4 hours on your first burn but don't burn for more than 4 hours.

Keep your wick trimmed to 5mm before lighting or relighting. This will reduce smoking and result in an even burn.

If you find that the candle does smoke, extinguish and ensure that the wick is upright above the wax, then allow the wax to solidify before trimming the wick to 5mm before relighting.

Handy Wax information

When you light your candle for the first time, allow it to burn right to the sides of the votive. You will get the most out of every burn.

You may also find that the surface of your candle may have slight markings in the wax -this is completely natural with soy wax - this will in no way detract from the quality and scent of your candle.

- Snuff the flame to extinguish.
- Avoid placing in draft areas as this leads to an uneven and rapid burn.
- Keep the wax free from debris or dust.
- Extinguish the candle when 5mm of wax remains.
- Always protect the surface on which your candle stands.
- Always place your candle on an even surface .
- And always keep out of the reach of children and pets.
- Never leave a candle unattended.
- Allow the candle to cool down before touching.

Refills available

We really hope you love our candles as much as we do so much so you want to re order.

Refills are available to order on line (the refill is the inner votive not the plated sphere)

Simply re order your required fragrance from our website and we will send out your refill with free P&P.
